TEMPLATE Safety Mask

Template is drawn to scale for 8.5" x 11" standard paper - Print full size and check measurements
see sewing instructions & video at www.adrn.org/safety-mask

This mask does not protect from COVID-19 on its own. It must be used with N95 for respiratory protection. CDC recommends wearing a cloth face covering in public settings where social distancing is difficult to maintain. CDC also advises the use of simple cloth coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting to others.
